

Birch

Friday 6th December
2024

Highlights for the week

Maths and English: We have been continuing our work with the story of the three little pigs. In Maths we have started to look at multiplication and division by looking at groups with or without criteria i.e. same colour.

Topic: We have moved onto our science topic, and exploring sounds, loud and quiet in particular using untuned instruments and using science experiments to make sound including making rice jump. Next week will move onto our RE lessons looking at journeys and we will link this to Christmas and then continue science in our last week of term.

PSD: In PSD this week we have explored the subject of sharing and turn taking using songs, stories and stage 3 bucket activities (splat the shaving foam), each child got to come up to the front of the class to splat the shaving foam and make a mess whilst our friends waited for their turn.

Class Awards:

Head teachers awards

James: for exploring and getting stuck in to messy mark making this week.

Oscar: for playing twinkl twinkl independently on the chime bars

For being safe at school: for going to Birch class new line up space to keep us safe with no prompts

Messages from Mrs Dixon:

- Please, remember to write in the **reading record**, all the interactions you do with your child when reading and to send in every day this and their reading books.

We look forward to seeing you on **Thursday 12th December at 9:45** for our class assembly 😊 Have a lovely weekend !!
