Maple Class

Friday
13th September 2024

Maple have had a brilliant first two weeks settling into school and getting used to our routine and classroom.

We have all enjoyed lots of time exploring the environment in our covered and active playgrounds as well as the climbing frame at playtimes and our class outside area in learning times.

If your child only drinks juice please send some into school for us to refill their bottles with, we do not have a school supply to use so will only be able to give them water.

If you have not done so already please send in your child's PE kit and wet weather gear so we can access Forest School on Monday.

Please remember to label as many of your child's belongings as possible so we can return them to the right place.

Thank you! 😊
