Maple Class

Friday
20th September 2024

We had an amazing first Forest School session!

We all put on our wet weather gear so we could explore the whole area moving through the bushes and trees and sitting in the hut.

Next week we will be starting Food Explorers before our snack time. All children will be given a small pot of food to look at, touch, smell and taste if they want to. These foods will change so that the children have the opportunity to explore different textures. After this they will have their usual snack time.

If your child has any upcoming medical appointments in school time please request an absence form to fill in.

When sending this back please also attach proof of the appointment through a printed copy or email to the office.
