

We will have a slight change to our daily schedule from next week moving forward. In your child's book is a copy of our new timetable and the visuals we have shared in class to explain the changes.

We are all working hard on our attention skills through Attention Autism and some of us are starting to experience Stage 2.

This week we experienced and celebrated Chinese New Year. We used chalk to colour in Chinese lanterns and put stickers onto snake pictures. We also had the opportunity to try fortune cookies, these were liked by a few children and an adult got the lucky fortune of 'you will grow old gracefully' so fingers crossed on that one!
