

## **Music at Maple Ridge**

### **Intent**

At Maple Ridge we believe a high quality music education should engage and inspire our children to develop a love of music and their talent as musician, and so increase their self-confidence, creativity and sense of achievement.

### **Curriculum Implementation**

#### **Team 1**

Our children will be given the opportunity to explore and investigate pitched and not pitched instruments. Through structured and free play they will build a knowledge and understanding of the instruments and the music elements. Following the EYFS Framework and Early Learning Goals, the outcomes will be taken from the following areas of learning:

- Understanding the World
- Expressive Arts and Design

#### **Team 2 and 3**

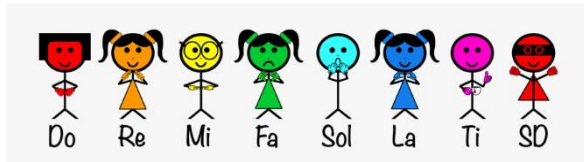

Our children will be using pitched and not pitched instruments to learn the musical dimensions of:

- Pitch
- Duration
- Dynamics
- Tempo
- Timbre
- Texture
- Structure

2 of these dimensions will be taught with each instrument. Voice will be ongoing throughout the year.
